

FOR IMMEDIATE RELEASE

April 11, 2024

As shared at the Exchange meeting on April 8 and according to the normal pattern of Board oversight, the RCSC Board met on Wednesday afternoon for a follow-up discussion on topics brought forward by the Membership, which this month centered almost exclusively around the future of Sun City libraries.

The preliminary result of the Board Information Session is that a subset of Board members and Management staff will be meeting with Mr. Jeremy Reeder, Director of Maricopa County Library District (MCLD), in the very near future to discuss concerns particular to our situation. While the totality of our agreement with Maricopa County is open for discussion, we expect the conversation to focus particularly on safety and security concerns.

We are delighted to have this opportunity to address those issues and to discuss with the MCLD the kinds of resources they can offer to help mitigate potential concerns in order to work toward a more long-term lease agreement.
